

## HEALTH & SAFETY

---

### ORDER PICKUP

March 28<sup>th</sup>, 2020

Inline Nurseries will be following these guidelines to help plank the curve of the current global pandemic as recommended by our Governing Health Officials. Please be mindful & respectful of social distancing while on the property picking up your order.

- Paperless policy - Inline Nurseries Logistics will email you a copy of your confirmation with a request that you scan the documents back to Inline Nurseries once the product is received with a signature/approval.
- Our employees are following strict hand washing, sanitizing practices and social distancing for themselves and the areas they work. We ask that all visitors picking up orders at the nursery do the same and wash their hands and use hand sanitizers and respect social distancing.
- Our office is closed to the public during these times. To accommodate this, we will be processing more order payments over the phone. If you must use our facilities, we ask that you use the shipping entrance and wash your hands in the shipping washroom before proceeding to the counter. Sanitizing agents in the washroom are to be used prior and after each use, wash your hands thoroughly and please practice social distancing. Our payment station, high-touch areas and pos machine are sanitized after each use.
- Nursery tours are suspended for the time being, as is self order pulling. Please consult with your sale's person to gain photos and information of plant material as required.
- Your orders will be available for pickup as instructed by our Logistics department. We ask that you load your own small order or stand clear while our team loads your order for you on your vehicle.
